Education

Full Stack Web Development
Masai
October 2023-present

Bachelor's In Computer Application
Indira Gandhi National Open University

High School
Saint Soldier Divine Public School

Technical Skills

JavaScript MongoDB

RESTful APIs CSS3

HTML5 Git

Responsive Web Design

Data Structures And Algorithms

Java Python Tailwind

BootStrap MySQL React

TypeScript

Soft Skills

Effective Communication

Teamwork

Attention to Detail

Problem Solving

Certifications

Full Stack Data Science 🔗
iNeuron.ai
Data science course which includes training on python,data analysis and creating and deploying machine learning models.

Sunny Kumar

Full Stack Web Developer

Professional Summary

Experienced Full Stack Web Developer skilled in JavaScript, MERN stack, and responsive web design. Proficient in creating and maintaining dynamic web applications using MongoDB, Express.js, React.js, and Node.js. Strong in problem-solving and rapidly adopting new technologies like Generative AI for enhanced development.

Experience

iNeuron.ai | Data Science Intern   May 2022 – August 2022

- Gathered and processed web data using Python and BeautifulSoup, providing crucial datasets for analysis and model training.
- Developed and optimized machine learning models to enhance predictive accuracy, contributing to advanced data-driven decision making.

Self-Employed | Teacher August 2019 – September 2023

- Delivered engaging lessons in science, math, and basic programming to students, enhancing their foundational understanding and analytical skills.
- Conducted sessions on Python programming for high school students, fostering early interest and competence in coding and computer science.

Projects

Chenab-Pointer-011   Live Demo Link   Github Repo Link

JavaScript Responsive Web Design HTML5

RESTful APIs CSS3 Git Json-server

- Designed UI/UX for the category page supporting multi-level filtering based on category, gender, fit, material, rating, and price.
- Implemented infinite scrolling to optimize server load and enhance user experience.
- Contributed to features such as user accounts, shopping cart, and wishlist functionalities.

Movieverse Live Demo Link Github Repo Link

HTML5 CSS3 Responsive Web Design

BootStrap Git JavaScript

- Led the project team, designing the structure, header, and navbar of the project.
- Ensured responsive design and accessibility across all screen sizes, including mobile, tablet, and desktop.
- Managed technical feasibility, Git merges, and conflict resolution, ensuring smooth project collaboration.
